

## **Congestion in West Park on Sunday 23-01-2022**

This is to warn residents to expect traffic and parking disruption in West Park this coming Sunday. There will be a large cross country event on the West Park fields. Starting from 10.00 am it will include a range of events with several hundred competitors.

Details with maps of the routes can be viewed on the [website for the Peco XC league](#), which is the organisation responsible for planning the meeting. The events will bring a lot of traffic into West Park and inevitably the prospect of parking chaos.

### **So be prepared for some disruption...**

From the website: *"Car Parking: There is no designated car parking. There is good on-street parking available in the surrounding streets. Either around the housing estate near the tent area/senior finish or around the top of Butcher Hill. Do not park on Spen Lane as this is a busy, narrow road and is on a bus route and particularly do not park on the verge alongside Spen Lane. You can also park on the roads around West Park (LS16 5QR puts you in the vicinity)."*

The website also warns people to: *"Please park with respect to the locals who live there as they may need access whilst you are running. Do not park to obstruct driveways and consider that drivers may need space to swing in or out of driveways."*

---

- Click [Email List](#) to tell us about any change in your contact details. (This is the same as clicking 'Reply').
- Click this [link](#) to request that we stop sending you email circulars.
- Click this link to access WPRA's [data protection policy](#).

### **WPRA Policy on Planning Alerts**

We circularise notifications of planning applications that the committee think are likely to be of general interest to the membership. It's then up to the individual to decide what personal action they wish to take, if any.
