Tour de Yorkshire Road Closures

Remember that the Tour de Yorkshire will be passing through West Park on Sunday, 5th May late afternoon and Spen Lane will be closed for part of the time.

Quote from [here](#): *The final stage on Sunday 5th May is the longest of them all. Starting in Halifax it takes a loop up through the Dales before entering Leeds to the North of the city at Cookridge. It then passes down Green Lane before coming back on to Old Otley Road, through West Park and onto Kirkstall Road at the Abbey. The route then crosses Kirkstall Bridge and travels out along Armley Ridge Road and Cockshott Lane to the by-pass. Before cutting through the centre of Armley, across to Burley Road and back into Leeds City Centre to finish with a spectacular crowd at the Town Hall at 5pm.*

More info [here](#) on the Leeds Live website: *Tour de Yorkshire 2019 full Leeds road closures, timings, routes and everything you need to know. On Sunday, May 5 - Stage Four (men's race) - rolling road closures will be in effect at the following times and places:*

Otley - between 4pm and 5:20pm

A Review into Pavement Parking

MPs on the Transport Select Committee are holding a review into pavement parking. They would like to hear from members of the public about the difficulties it causes.

[Here is a link](#) to the parliamentary web page with instructions on how to comment.

The deadline for making a comment is the 14th May. For more information on this subject, please see the "[Living Streets](#)" web page.

We have plenty of pavement parking issues in West Park, so if you feel strongly about it, this is a chance to submit your views.
